ELEMENTARY SCHOOL

Math All Around

Entering Grades **1-3**

 July
6th-10th
11:00am-12:00pm

 July
20th-24th
9:00am-10:00am

 August
3rd-7th
11:00am-12:00pm

 August
17th-21st
9:00am-10:00am

Our popular after school club comes to the center! Experience math in a fresh way and learn how math relates to art, shopping, computers, sports, and everyday life! Make friends with math and understand its beauty and relevance all around you! Crafts each day!

Puzzles and Games

Entering Grades **2-5**

 July
6th-10th
12:30pm-1:30pm

 July
20th-24th
10:30am-11:30am

 August
3rd-7th
12:30pm-1:30pm

 August
17th-21st
10:30am-11:30am

Keep your brain sharp by working on fun math puzzles and games! Bring a friend and compete - or not. If you have always wanted to be better with math, but never had the confidence, this is the camp that will give you super powers!

Word Problem Busters

Entering Grades **2-5**

 June
22nd-26th
10:30am-11:30am

 July
13th-17th
12:30pm-1:30pm

 August
10th-14th
12:30pm-1:30pm

You and word problems never had a good relationship. If you want help in understanding problems and solving them with a new tool set that includes visuals, context, number sense, and gut-checks, this is the camp for you. Guaranteed that you'll bust the word problem fear.

Science All Around

Entering Grades **1-3**

 June
22nd-26th
9:00am-10:00am

 July
13th-17th
11:00am-12:00pm

 August
10th-14th
11:00am-12:00pm

Experience science in a fresh way and learn how it relates to the environment, healthcare, nature, architecture, and a whole lot more. By drawing connections across the major domains of science (physical, life, earth and space science as well as engineering design), you'll see a side of science that is fun and relevant!

We will have off-site camps as well. Contact us for more information.

\$185 per student

10% discount for groups and siblings

MIDDLE and HIGH SCHOOL

Sneak a Peek Into Middle School

Rising **6th and 7th**

 July
6th-10th
9:00am-10:30am

 July
20th-24th
11:00am-12:30pm

 August
3rd-7th
9:00am-10:30am

 August
17th-21st
11:00am-12:30pm

Are you in middle school, or are you getting ready for it? If so, we will tackle key foundational topics including ratio and proportional relationships, number systems, and expressions and equations. We will go back and touch on foundational skills, too. After this camp, you'll be ready to conquer middle school math!

Algebra Boost

 July
6th-10th
11:00am-12:30pm

 July
20th-24th
1:00pm-2:30pm

 August
3rd-7th
11:00am-12:30pm

 August
17th-21st
1:00pm-2:30pm

If you want to excel in algebra, this is the course for you. We will touch on major topics such as expressions, equations, and linear, quadratic, polynomial, and exponential functions. We will also review foundational pre-algebra topics that will sharpen your brain and get you ready for this gateway course.

Geometry Boost

 June
22nd-26th
11:00am-12:30pm

 July
13th-17th
9:00am-10:30am

 August
10th-14th
9:00am-10:30am

Taking geometry next year? Already taken geometry but never really got it? This is the course for you! We will go over major topics such as congruence, similarities, right triangles, trigonometry, circles, and geometric properties. You'll enjoy understanding the highlights of this exciting area of math!

ACT/SAT Study Sessions

 June
22nd-26th
1:00pm- 2:30pm

 July
13th-17th
10:30am-12:00pm

 August
10th-14th
10:30am-12:00pm

Taking the PSAT, SAT or ACT in the fall, spring, or even next year? Practice and learn in a low-stress environment and start to familiarize yourself with the content required to perform well. We will use your prior test scores as a benchmark while also tracking progress. After this course, you are guaranteed to heighten your understanding in mathematics!

We will have off-site camps as well. Contact us for more information.
